GLOBAL *factories*

Bestway® is poised for sustainable, global growth. From wholly owning its 5 factories - 4 in mainland China and 1 (soon to be 2) in Vietnam - to actively reducing and reusing waste and focusing on production efficiency, Bestway's strategic focus on an end-to-end manufacturing and distribution process results in faster delivery, superior product quality and the highest levels of customer satisfaction.

With the addition of its state-of-the-art, 233,000 square meters manufacturing facility in Vietnam, Bestway is primed for exponential growth while providing tariff savings and manufacturing redundancy while enhancing global shipping and supply chain support for many years to come.

OUR COMMITMENT TO A *better future*

As a leader in innovations, Bestway is striving to **B the Change** in the industry. We manufacture our products in 1.8 million square meters of factory buildings, each covered in solar panels to equal about 40 soccer fields.

As an annual recipient of the “Top Performing Supplier on Climate Action” award, we continue to drive sustainable practices forward through three main categories: **renewable resources, waste and packaging.**

SEEK YOUR ADVENTURE

BOARDS

Stand-up paddleboarding (SUP) has become incredibly popular across the globe, and with a wide variety of Hydro Force® boards to choose from, there's a board for everyone. The engineering team at Bestway® creates boards for both beginners and experienced riders to explore. Each board is crafted, fine-tuned, and ranked for overall maneuverability, tracking, stability, and speed. Year after year, Hydro Force® continues to rule the SUP lineup!

BENEFITS

Bestway's inflatable SUP line offers all the advantages that come along with hard boards, plus these added benefits:

- **Easy to transport in a car or on a plane** — a true money saver, as there is no need to purchase a roof rack or pay expensive shipping costs
- **A great choice for beginners** — the thicker material is generally more stable than a hard board
- **Sold as a package deal** — everything that's needed is included in one lightweight, grab-and-go carrier
- **Tough and springy** — the flexible material is more resilient than a hard board

Ease and portability make an inflatable SUP the ultimate board, especially for beginners. Some models even come with a convenient kit to convert the paddleboard into a kayak, giving the user two options every time they cruise the open water. With a Hydro Force SUP, anyone can have a summer of adventures.

FEATURES

BUILT-IN PUMP

Setup just got even simpler thanks to the innovative CompactAir™ self-inflating system.

- Automatically inflates with the touch of a button when connected to a DC outlet
- Comes with cord to connect to a compatible DC car outlet or plug

CONVERTIBLE / KAYAK SEAT

Includes seat and footrest, plus convertible paddle, for use as SUP or kayak

QUICK-RELEASE LEASH

- Innovative design allows user to pull the quick-release tab & easily disconnect from their board
- Comes in 2 versions: ankle only and ankle/waist

PANORAMA WINDOW

- Open cover to see the water below
- Close the cover during rougher water conditions or to prevent glare from sun

TRAVELTECH™ DESIGN

Folds horizontally and vertically, for 40% more compact structure than traditional inflatable boards and comes with a compact backpack for easy transport
