SUMMER

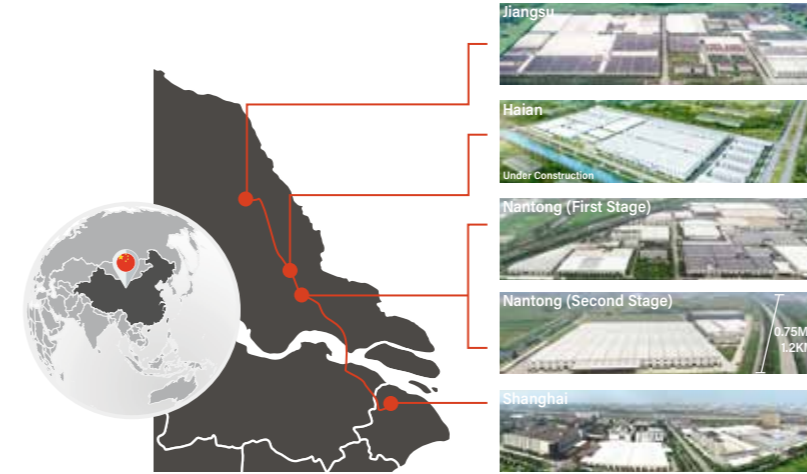

AN IMPORTANT MESSAGE FOR BESTWAY CUSTOMERS:

We are pleased to inform you that Bestway successfully listed on the Hong Kong Stock Exchange (3358.HK) on November 16, 2017. This is an important milestone for our business, but more importantly, a crucial step for the continual growth and support of our customers.

We would like to sincerely thank you for 24 years of business, and our entire family is looking forward to the next era of Bestway.

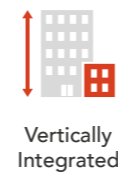

OUR VISION

We create fun, lasting experiences to everyone in the world through the products and services we provide.

NO ONE IS *COOLER*

A unique line of more "grown up" water sports items, CoolerZ™ means relaxing fun in the sun with friends and family, either by the pool or at the beach. CoolerZ's thicker material gauge and added value elements and accessories all add up to a premium inflatable product experience. With built-in cup holders and cooler bags, just to name a few of the cool features, you'll want to be in on the fun the CoolerZ line guarantees.

STAND, PADDLE, *BREATHE*

Stand up paddle boarding was recently reported as the outdoor sporting activity with the most first-time participants of any in the United States. And it's no wonder why. It is relatively easy for anyone to do, and the health benefits gained from paddle boarding are tremendous! With some awesome boards to choose from at Bestway®, this summer is the perfect time to give it a whirl! And because our boards are inflatable, you can take them with you wherever you go. Bestway rules the lineup when it comes to inflatable SUPs.

STANDING UP ON YOUR *SUP*

When you're new to the sport, it's best to start out in flat, calm water that's free of obstacles like boats and buoys. At first, you may find it easier to kneel on the board rather than to stand upright. Here are the steps to get you started:

- Standing alongside the board in shallow water, place your paddle across the deck of the board and use it as an outrigger. The paddle grip is on the rail (edge) of the board; the blade rests on the water.
- Hold the board by the rails. One hand will also be holding the paddle grip.
- Climb onto the board in a kneeling position, just behind the center point of the board.
- From that kneeling position, get a feel for the balance point of the board. The nose shouldn't pop up out of the water and the tail shouldn't dig in.
- Keep your hands on either side of the board to stabilize it.
- Once you're ready, stand up on the board one foot at a time. Place your feet where your knees were. You might also bring a friend to help stabilize the board as you get the hang of standing on it.

BOARD WITH *BENEFITS*

Bestway's inflatable SUP line offers all of the advantages of fun that comes along with hard boards plus these added benefits:

SUP STANCES

- To maintain your balance as you stand upright on the board:
- Your feet should be parallel, about hip-width distance apart, centered between the board rails (edges). Don't stand on the rails.
- Keep toes pointed forward, knees bent and your back straight.
- Balance with your hips—not your upper body.
- Keep your head and shoulders steady and upright, and shift your weight by moving your hips.
- Your gaze should be level at the horizon. Avoid staring at your feet.
- Much like bicycling, when your forward momentum increases, your stability increases as well.

SUP STROKE

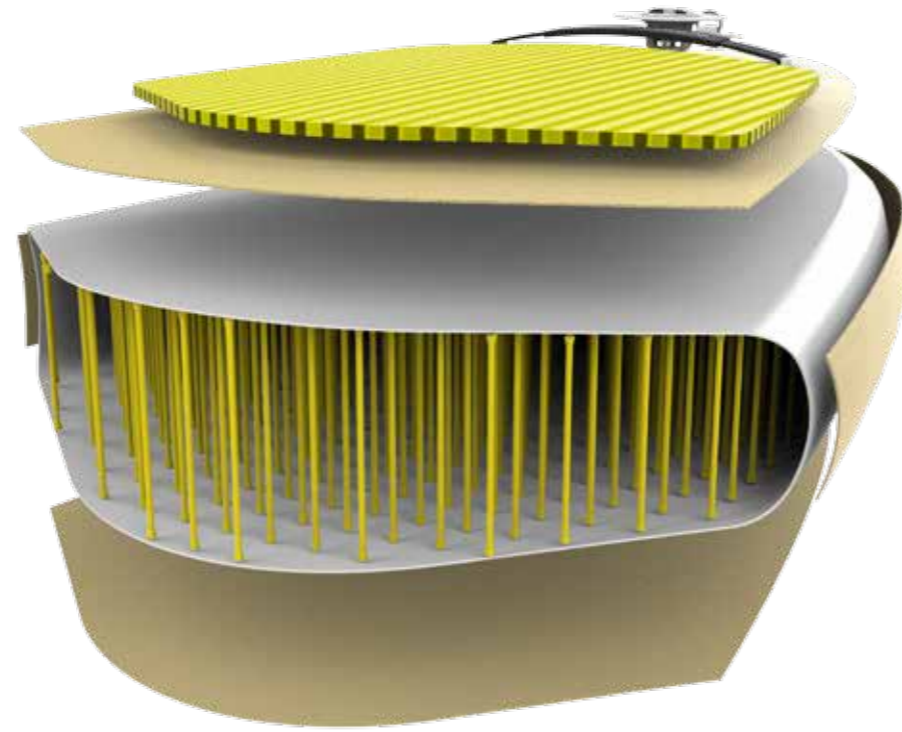

Once you're comfortable balancing on the board in flat water, it's time to take off on a longer excursion—where the real fun begins.

INFLATABLE SUPs *BUILT THE BEST WAY*

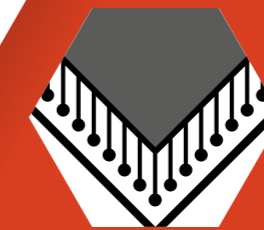

BESTWAY'S® INFLATABLE SUP LINE OFFERS ALL THE ADVANTAGES THAT COME ALONG WITH HARD BOARDS PLUS THESE ADDED BENEFITS:

- Easily transported on a plane or in a car, this is a money saver and a convenience, as there is no need to purchase a roof rack or pay expensive shipping costs.
- Sold as a package deal, everything you need is included in one lightweight, grab-and-go carrier. A set is also available with a conversion-to-kayak kit.
- Generally thicker and more stable than hard boards, which is an advantage for beginners just starting to learn.
- Allows more versatility, as they can be inflated and deflated easily.
- Resilient—while a hard board may become damaged from running into a dock, an inflatable board tends to bounce right off with no damage.

TRITECH™ MATERIAL

Trittech™, a 3-ply reinforced material with a polyester mesh-core encased in two layers of laminated PVC that offers superior strength and durability. This premium marine grade material can withstand the most extreme nautical conditions including exposure to petroleum products and ultraviolet rays.

DROP STITCH MATERIAL

It's a wonder material that has been successfully used in such mission-critical applications as floating docks, high-pressure rescue lifting bags and even airplane wings! It owes its remarkable properties of extreme rigidity combined with astonishing lightness to a network of thousands of polyester threads (the "drop stitches" referred to in the name). These threads securely connect the material surfaces internally, while carefully applied sidewalls seal the finished inflated cavity to create a panel that effectively supports considerable weight while itself being light and easily portable when deflated.

STAND UP, *STAND OUT*

Hydro-Force™ inflatable stand up paddle board packaging is all about the active lifestyle that comes with this new form of surfing – a sporty and serious line that appeals to first-timers and SUP pros. Each SUP package inspires adventure and highlights the durability of Hydro-Force products.

PLANOGRAM STORE DISPLAY

Actual in-store displays may vary.

ALL ROUND

High maneuverability and lightness make this board perfect for flat water and small wave riding (Aqua Journey, Oceana, Huaka'i Tech).

TOURING

Stability, speed and space for luggage. Perfect for long and safe tours on the water (Cruiser Tech, Freesoul Tech).

RIVER

Perfect for long and safe tours on the water, suitable for use both in flat water and on river (Kahawai).

RACE / FAST TOURING

Long, fast and stable board, suitable for fast riding and medium-long tours on the water (Fastblast).

AQUA JOURNEY

NEW
GENERATION

65302/E

Inflated: 9ft. x 30in. x 6in. / 2.74m x 76cm x 15cm

SPECIFICATIONS

Weight Capacity	Passengers	Case Pack	Lb. (kg)	Packaging
242 Lbs. (110 kg)	1	1 pcs	27.7 Lbs. (12.6 kg)	Full color box

FEATURES

- Made from drop stitch material providing unparalleled strength, stability and durability
- Non-slip traction pad
- Adjustable 85in. (2.17m) aluminum oar (3 sections)
- Convenient deck handle to easily carry the SUP
- Category: All around. High maneuverability and lightness make this board perfect both for flat water and small wave riding

CONTENTS

- One paddle board
- One paddle
- One hand pump
- One travel bag
- One surf leash
- Repair kit

NEW
GENERATION

OCEANA

65303/E

Inflated: 10ft. x 33in. x 6in. / 3.05m x 84cm x 15cm

SPECIFICATIONS

Weight Capacity	Passengers	Case Pack	Lb. (kg)	Packaging
287 Lbs. (130 kg)	1	1 pcs	35.3 Lbs. (16.0 kg)	Full color box

FEATURES

- Made from drop stitch material providing unparalleled strength, stability and durability- Seat with back rest
- Elastic cord for extra storage
- Adjustable 85in. (2.17m) 4 pieces aluminum oar
- Category: All around. Best shape for safe and multifunctional driving in every water condition

CONTENTS

- One paddle board
- One paddle
- One hand pump
- One travel bag
- One surf leash
- One seat
- One footrest
- Repair kit

KAHAWAI

NEW

65308/E

Inflated: 10ft.2in. x 34in. x 6in. / 3.10m x 86cm x 15cm

SPECIFICATIONS

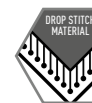

Weight Capacity	Passengers	Case Pack	Lb. (kg)	Packaging
309 Lbs. (140 kg)	1	1 pcs	32.3 Lbs. (14.7 kg)	Full color box

FEATURES

- Made from drop stitch material providing unparalleled strength, stability and durability
- Non-slip traction pad
- Elastic cord for extra storage
- Multiple convenient handles to easily carry the SUP and for grabbing during use on river
- The long rubber fins reater directionality with strong undertow
- The kickboard helps to increase the maneuverability
- Category: Touring, stability, speed and space for luggage
- Perfect for long and safe tours on the water, suitable for use both in flat water and on river

CONTENTS

- One paddle board
- One paddle
- One hand pump
- One travel bag
- One surf leash

ENDURA DIVE FINS

- Ideal for warm water
- Lightweight design for easy travel
- OCT (Optimized Channel Thrust) Fin Technology for optimal water channeling at all times providing increased efficiency and power
- Angled design for maximum kick efficiency producing maximum forward motion (lift) with less effort
- Hydrodynamic ribs minimize lateral movement
- Creates less strain on the leg muscles compared with traditional fins, reducing the diver's fatigue and subsequent air consumption
- Soft molded foot pocket for added comfort
- 100% latex free
- 4 assorted colors
- Carry bag with header card
